Program Manager Karen Johnson

Federal Co-Chair Joel Neimeyer

11/6/13

Pursuant to the terms and conditions of the Grant/Award, this Authorization:

This Project Authorization (PA) in combination with PA 1072-Y and authorizes the Alaska Department of Labor to contract with Three Star Enterprises to facilitate the collaboration of Alaska's new FMT Centers of Excellence (FMT Centers) for facility maintenance training. The reason for two PAs is to obligate the balances in both awards 1134 and 1072 for a combined total of $86,558.54 for the entire project as defined below.

The goal being to build alliance to and alignment of each schools Facility Maintenance Technician (FMT) program. These FMT Centers include Alaska's Institute of Technology (AVTEC), Bristol Bay Campus (BBC), Interior Aleutian's Campus (I-AC) and Yuut Ilitnauviat (Yuut).

Three Star will assist the FMT Centers through facilitation, research, support, promotion, and advisement to reach the following outcomes:

1. Facilitate the development of a Facility Maintenance Technician certification pathway that aligns with the DACUM. Outcome: The FMT Centers will create a state FMT pathway that identifies FMT levels, competencies within each level, and program delivery including cost per student for each level.

2. Facilitate the development of an articulation agreement between the FMT Centers that will allow for students to transfer from school to school to reach their FMT certification goal. Outcome: The FMT Centers will develop an articulation agreement that will benefit both school and student and support the on-going development of a state FMT standard.

3. Build knowledge and secure commitment amongst regional and state employers and other stakeholders of the newly developed FMT certification pathway. Outcome: Greater than 300 regional and statewide employers will learn about FMT Centers and the FMT pathway. Three Star will attain letter of support from each of these stakeholders.
