November 2015***

All changes to the award conditions are noted below.

- Details on approximate costs of full upgrades of the facilities identified in the inventory.
- Cost estimates of partial refurbishments of the facilities identified in the inventory, in the range of approximately \$500,000 to \$1 million, and identification of potential locations for this approach.
- Cost estimates for small repairs and refurbishments, under \$100,000, including but not limited to stopping active leaks, fencing and lighting, and improving secondary containment.

These additional funds shall not be expended until after Commission staff have received and reviewed AEA's 2015 report and updated deficiency list.
