

Denali Commission Monthly Project Information Sheet

Date: 23-Jul-12
 Project Title: Strategic Dust Control
 Award No.: RA -01003-00
 AKSAS No.: 61255
 Location: Emmonak, Alaska
 Expiration: 31-Dec-2012

PM: Dave Barnes/ Ethan Birkholz
 Status: **Close Out**

Development of a dust control research roadmap that strategically identifies and prioritizes critical dust control research needs in Alaska and other rural cold regions. Development of instrumentation and methods to monitor the production of dust from road surfaces. Support the Department of Transportation & Public Facilities with their field tests of different dust control measures in the Village of Emmonak and other locations around the State such as village airports. The roadmap will be developed from extensive literature review and from experience as field tests are conducted.
