Environmental and Special Program Branch

Mrs. Tessa Axelson
Transportation Program Manager
Denali Commission
510 L Street, Suite 410
Anchorage, AK 99501

Dear Mrs. Axelson:

The Alaska District has completed the technical plans and specifications, cost estimate, and permits for the Tenakee Springs Ferry Dock Design project. Copies of these documents are enclosed for your records. In addition, copies of these documents are being sent to Mr. Don Pegues, City of Tenakee Springs Mayor, and Denali Commission Transportation Program staff Mike McKinnon.

Please note that the design documents contain the annotation "100%". This is an Alaska District internal stage in the production of bidding documents. The design drawings also include the annotation "NOT FOR CONSTRUCTION" to clarify that these drawings have not been published for use in a bid set.

Before the technical plans and specifications can be advertised for construction the following actions are required:

1. Contract specifications of the bidding organization must be added to complete the bid package
2. Permits must be updated for actual construction dates
3. Coordination of construction dates with stakeholders
4. Publish the plans and replace 100% with IFB (Invitation for Bid) or RFP (Request for Proposal) and remove "NOT FOR CONSTRUCTION"

The Alaska District appreciates the continued opportunity to work with the Denali Commission. Please contact me at (907) 753-5694 if you have any questions or require any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Melanie A. Peterson".

Melanie A. Peterson
