Subject: RE: Tanacross Road Improvements - Project Scope Amendment Request

Approved; Adison will work to complete the amendment.

Please have the PM ensure that Mike and I are aware of dates for community meeting to discuss changes.

Subject: Tanacross Road Improvements - Project Scope Amendment Request

Tessa

DOT&PF is requesting to amend the project scope for the Tanacross Road Improvements project. The scope will be changed to the following:

The design and construction project includes surface repairs, and a dust control surface treatment on up to 4.5 miles of access and village roads around Tanacross, from the Alaska Highway to the village and the local airport. The project will improve vehicular and pedestrian safety, reduce dust and reduce overall maintenance costs over the life of the improvements. The surface treatment will mitigate airborne particulates, thus significantly contributing to the improvement of respiratory health for the residents of Tanacross. It will also improve safety by decreasing dust particles.

The reasoning for the scope amendment is to change the project from a high float project to a basic dust control surface treatment project. The cost of a high float project was greater than the amount that the grant was submitted for.

Thank you for your consideration with this matter.
