Venetie Primary Care Clinic Design
Review and Update

May 10, 2012 through June 30, 2013

\$34,969.00

n/a

\$0.00

Pursuant to the terms and conditions of the Grant/Award, this Authorization:

Original PA Amount: \$22,000

Amount Change with This Action: \$12,969

New PA Funding Amount Total: \$34,969

The community of Venetie is participating in efforts to improve the community's overall energy usage and efficiency. Toward that goal, Venetie is working on a waste heat recovery project. The waste heat from the nearby power plant is proposed to be recovered and used to offset fuel used to heat the clinic.

The additional money included in this Project Authorization Amendment in the amount of \$12,969 is intended to cover the design costs of the future integration of that waste heat recovery system into the clinic building.
